Walter Jahir Ambriz Reyna

Backend & AI Engineer | Reliability & HealthTech

Guadalajara, Jalisco, Mexico • walterardev@gmail.com • amnotwallas • walterambriz

Summary

Backend & AI Engineer focused on production APIs, reliability, and practical AI integrations. Experienced in LLM evaluation, incident analysis, access control, and health-data workflows for a corporate wellbeing platform.

Experience

Backend & AI Engineer, IBICARE – Remote, Mexico Sep 2025 – present

- Built an MLflow CI/CD evaluation pipeline to catch prompt regressions, tool-calling failures, hallucinations, and safety issues before deployment to 400+ active users.
- Traced a misleading Neuroa response to an external API GET-to-POST change, restored the integration, and added regression tests.
- Implemented role-based access for users, administrators, and health professionals across application and agent inference.
- Connected Neuroa agents to backend APIs for historical health-record queries and appointment scheduling.

Projects

Sentinel — API Reliability Platform Oct 2026 – present

Open-source, self-hosted platform for API regression testing, failure correlation, and distributed trace evidence.

- Built versioned API regression suites with immutable baselines, asynchronous runs, failure recovery, concurrency control, and OpenTelemetry traces.

CaseLens — Legal RAG System Jun 2025 – present

Full-stack RAG application for natural-language legal document search with source citations.

- Blocks LLM calls for empty or irrelevant retrieval results and streams answers with exact source citations.

Skills

Backend & Data: Python, FastAPI, Node.js, TypeScript, REST APIs, PostgreSQL, SQL Server

Cloud & Delivery: Azure App Service, Azure Blob Storage, AWS S3, Docker, GitHub Actions, CI/CD

Reliability & Quality: MLflow, OpenTelemetry, distributed tracing, pytest, regression testing

AI & Security: LLM integrations, RAG, agent orchestration, SSE, JWT, RBAC

Education

Instituto Tecnológico Superior de Apatzingán (ITSA), B.S. in Computer Systems Engineering – Mexico Aug 2021 – Aug 2026

Coursework completed; degree conferral in progress.

Languages

Spanish: Native

English: Professional working proficiency (B2)
